

## Grangemouth High School – S5/6 Parents' Evening Parent Survey

Our S5/6 Parents' Evening took place on 17 March. Below are the results of the parent evaluation of the evening and the new system. We will collate this feedback with the results of the surveys for S2, S3 and S4. We will use this feedback to adapt and improve the system where possible.

- **Attendance level of parents & carers:** 58%
- **Total survey respondents:** 45

*Numbers in the survey show number of individual responses, NOT percentages.*

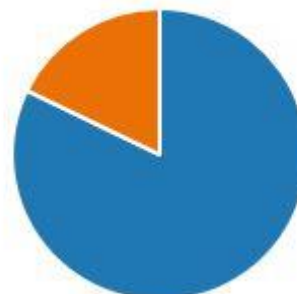

It was easy to log in and start my appointments

[More Details](#)

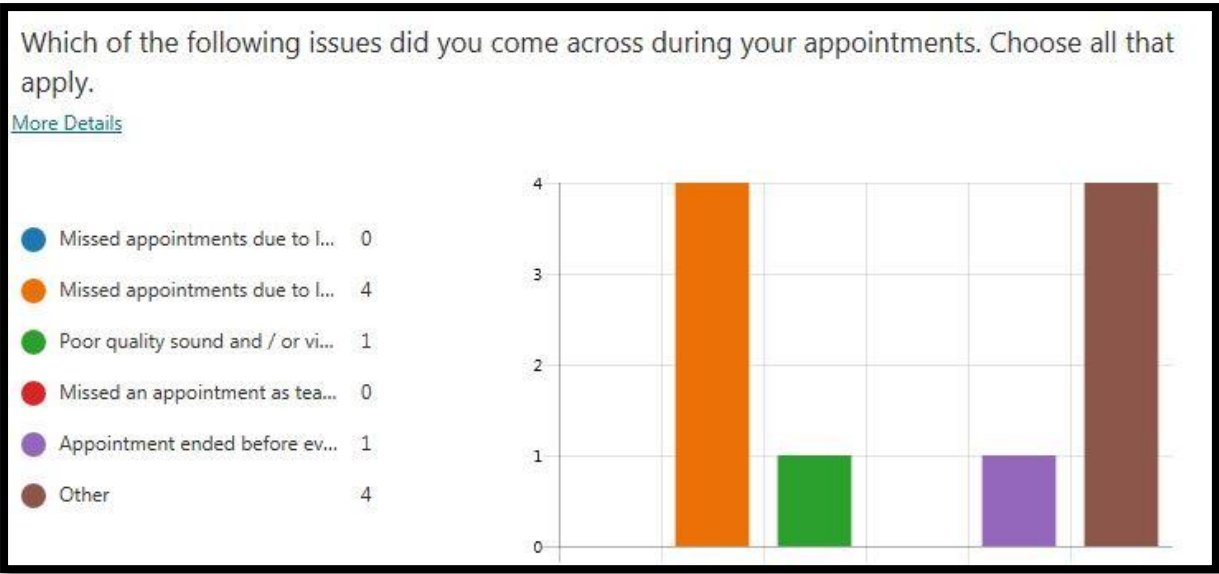

I had no significant issues or problems during my appointments.

# Grangemouth High School – S5/6 Parents’ Evening Parent Survey

**Key**

|                                                        |
|--------------------------------------------------------|
| Missed appointments due to loss of own wife            |
| Missed appointments due to loss of parent wife         |
| Poor quality sound and / or vision                     |
| Parents were present but did not attend appointment    |
| Appointment ended before everything had been discussed |
| Other                                                  |

**Key**

|                                                             |
|-------------------------------------------------------------|
| Agree – but only for parent evenings during school closures |
| Agree – for all future parent evenings                      |
| Disagree                                                    |
| Not sure                                                    |

### Comments:

|                                                                                                                                                                                                                                                                                                       |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| For some subjects it would have been beneficial to have a bit longer than 5 mins, but mostly I found that the time was adequate                                                                                                                                                                       |
| Making it easier for multiple children from the same year ie twins 2 have appointments together rather than an hour apart would have been helpful Maby a little longer on appointments if parent/teacher felt it was needed                                                                           |
| It would be good to get feedback also on consortia classes.                                                                                                                                                                                                                                           |
| 5 minutes was a bit rushed so a bit longer would be nice. Lots of information in a short period of time was a bit overwhelming.                                                                                                                                                                       |
| I think this was a great idea but unfortunately we had severe issues with one of our four appointments. If those issues hadn't happened I'd have no hesitation in saying this would work as a format for all future parents evenings. We'd still like an update on physics and chemistry if possible. |
| 5 mins was not long enough for some subjects so an increase in time 10/15 mins could be better, still have the cut off. No wandering about corridors, no long waiting times or missing any subjects. I did like it.                                                                                   |
| Not a great system, when you are discussing your child's future choices and future you really need more that five minutes                                                                                                                                                                             |
| 5 minutes isn't long enough. By having the countdown you are guaranteed not to run over so even 7 minutes would make a difference                                                                                                                                                                     |
| If possible I would like a meeting with ---- chemistry teacher ---- as there was 2 failed attempts yesterday to connect with her.                                                                                                                                                                     |
| Very easy to log appointments. Easy to access video setting and excellent quality. Only criticism, could have done with longer appointments, 5 minutes wasn't enough.                                                                                                                                 |
| If this was to go on maybe have more time so parents can ask questions if need be. I understand the situation is not ideal for all but maybe a 10 minute appointment 5 minute teacher 5 parent/child                                                                                                  |
| Missed the single appointment we had booked as teacher could not get connected, so, sadly, our experience was 100% unsatisfactory. Appreciate that it saves time and for some will have worked well, but not for us. There is no sense of wider school community/engagement.                          |
| Absolutely brilliant way to have parents evening. Slick, no time wasted, short snappy info from teachers. Perfect                                                                                                                                                                                     |
| It was very good and organised very well, I feel 5 minutes wasn't quiet long enough for some of the subjects, but still very happy.                                                                                                                                                                   |
| Longer with each teacher would help                                                                                                                                                                                                                                                                   |
| I think the time slot might be better if it was slightly longer possibly 7 1/2 minutes.                                                                                                                                                                                                               |
| 10 minutes would be better                                                                                                                                                                                                                                                                            |
| It was a very slick system but 5 mins was too short. Unable to have meaningful conversation. Hence the " unsure answer". If appointments could be extended to at least 10 mins minimum then would have selected the agree option.                                                                     |
